

Mr. Abraham Manley
71 Crawford Street

Dear "Capt."

Yours of last week
has been received and would
have been answered before now
except for the fact that it
came at the time when I
was daily negotiating with
the City authorities for
Plant Field, and of course
I wanted to have something
definite to write you.

While I have been given
every reason to believe that
we will in the very near
future be able to get the
field in question, we must
keep ourselves reminded that
it is the property of the

211

City, and of course, our petitions
have to go through many hands.
However, I say to you in all
truthfulness that I am able
to report even more progress
than I had ever hoped to have
in so short a time.

Along with two of the reputable
Citizens that I spoke to you
about, we have been invited to
attend the regular City Council
Meeting on Thursday, Feb. 7th
at which time I expect to
receive some sort of proposition
in writing, which I shall
forward on to you as soon
as it comes to hand.

3/

I wrote to Rufus Lewis as per your instructions, but I as yet have not heard from him, I sent along with the letter, one of your Cards ~~and~~ and told him to get in touch with you if he preferred to do that.

If you should hear from him any time soon please let me know, as I intend to write him again providing I have not heard from by early next week.

In closing allow me to Congratulate you on your success in Cal. And by all means I shall keep

You posted as to how things
are shaping up here.

Respectfully yours
Eugene Fustin
